

Red Stiletto (Rachel Hodges Book 1)

Set in Hull, East Yorkshire, UK City of Culture 2017, Red Stiletto is a light-hearted crime novel featuring calamity-prone private detective Rachel Hodges and her boyfriend, police inspector Steve Rose. Rachels cases often land her in hot water, but when one of her cases collides with Steves investigation into a series of brutal murders, she is totally unprepared for what lies ahead... Add in to the mix a paranoid woman out for revenge, a pretty steamy love triangle and Rachs slightly off-the-wall family, and theres never a dull moment. Praise for Red Stiletto: held a riveting pace and was well-constructed - Tindal Street Press humorous and engaging and I enjoyed reading it. I do like this style of writing very much and I think that you write well Victoria Mellor, Senior Commissioning Editor Crime and Thriller, Headline Publishing Group If you enjoy Jennifer Crusie, Janet Evanovich or similar light-hearted crime writers, why not give Red Stiletto a try? Heres an excerpt from the book to whet your appetite: Id been violently sick after Id stumbled across the body, a red stiletto protruding from its eye. In shock, I rang Steves mobile, rather than ring 999. When Id finished telling him what had happened in the small country park in the shadow of the Humber Bridge, Inspector Steve Roses first question was, Is that stiletto as in knife or as in shoe, Rach? Shoe. Size six Id guess. Well, I hope you havent contaminated the crime scene. What the hell are you doing up there on your own anyway? Im not on my own. Mums with me. Or at least shes in Dads car in the car park. What? My car burst into flames yesterday and Dad wont let me take his car out on my own. But your mum cant drive. Yeah, well. Dads doing her head in with his broken arm, cluttering up the place and being a rotten patient. He let her come out so she can make sure his car doesnt go up in flames as well. Im not even going to ask about the car, sweetheart. When are

you going to quit that job? Dont go there now, please. Ive just been sick. I wasnt going to get drawn into our long-running dispute over my job as a private investigator. Steves been on at me ever since he re-appeared in my life, telling me to pack it in and do something else. Police inspectors dont have much time for private investigators at the best of times, and having one for a girlfriend is practically a hanging offence. Hes not the only one. Mum and Dad arent exactly keen either, though Dad restricts himself to the occasional muttered remark along the lines of not what I supported you through university for. Mum, on the other hand, was going to have a field day if she thought this body had anything to do with my work. She was always reading out job adverts to me, or else reports of dreadful crimes that I might somehow become involved in through my work. You still havent told me why youre up there anyway. Client confidentiality. I cant say. Rach, this isnt one of your normal cases. This is a dead body were talking about. Sod the confidentiality.
