

## Comanche Rain

Amata, a five year old Comanche child growing up with the determination of becoming a great warrior in her own right. She must learn the lessons chief Aberon, her father, teaches her as well as those taught by the spirit world. All of the lessons learned she must teach in her own way to the children known as the chosen four. These chosen children are able to travel through the spirit world and are a part of both worlds. They were born, raised and trained to do the bidding of the Great Spirit with the very life force of the Great Spirit wilding his mighty hand through them. These four children have destinies to complete as they become the salvation of the Comanche Nation only to be betrayed by one of their own. All that they endured and all they have accomplished seems lost as they embark on the trail of tears forced on them by their enemy. Their strong will and determination at the end of their journey makes one wonder if they will come back and fight again for what they so desperately believe.
