

Tap Dancing Through Time

Is there ever such a thing as free love? Constantly out of step, our heroine grows up in a loveless home, the unwanted daughter referred to as the tap dancer in a ballet class. From simmering discontent with life as a convent girl, through far less well-ordered art student years in the late Sixties, there follows a strangely Bohemian existence. Only when she discovers that happiness and success are within her grasp, does she find that security comes at a devastating and unexpected cost.
