

The Life of Cesare Borgia

This is no Chronicle of Saints. Nor yet is it a History of Devils. It is a record of certain very human, strenuous men in a very human, strenuous age; a lustful, flamboyant age; an age red with blood and pale with passion at white-heat; an age of steel and velvet, of vivid colour, dazzling light and impenetrable shadow; an age of swift movement, pitiless violence and high endeavour, of sharp antitheses and amazing contrasts. To judge it from the standpoint of this calm, deliberate, and correct century as we conceive our own to be for sedate middle-age to judge from its own standpoint the reckless, hot, passionate, lustful humours of youth, of youth that errs grievously and achieves greatly. So to judge that epoch collectively is manifestly wrong, a hopeless procedure if it be our aim to understand it and to be in sympathy with it, as it becomes broad-minded age to be tolerantly in sympathy with the youth whose follies it perceives. Life is an ephemeral business, and we waste too much of it in judging where it would beseech us better to accept, that we ourselves may come to be accepted by such future ages as may pursue the study of us. But if it be wrong to judge a past epoch collectively by the standards of our own time, how much more is it not wrong to single out individuals for judgement by those same standards, after detaching them for the purpose from the environment in which they had their being? How false must be the conception of them thus obtained! We view the individuals so selected through a microscope of modern focus. They appear monstrous and abnormal, and we straight-way assume them to be monsters and abnormalities, never considering that the fault is in the adjustment of the instrument through which we inspect them, and that until that is corrected others of that same past age, if similarly viewed, must appear similarly distorted.
