

Infidelitys Fool

Infidelitys Fool, by author Mannie L. Magid, explores the peaks and valleys of a 34-year old marriage. Written from the perspective of a physician, this richly textured narrative treats the reader to a poignant and personal account of love, loss, and forgiveness. Len and Gertrude meet in 1971 and marry soon after. In their home town of Jacobsburg, Len goes to medical school and Gertrude enters college. Their lives fast track to success when Len becomes the Chief of Medical Staff in a prestigious hospital. Lens achievements shape his inflated ego, and he has an affair. Meanwhile, Gertrude is coming to grips with learning that she has breast cancer. After treatment, the two manage to save their marriage, but Lens infidelity comes back to haunt him when 34 years later he suspects that Gertrude is having an affair. Tragedy strikes again and Len and Gertrude learn just how important their marriage is and what they must face in order to rediscover what brought them together so many years ago. Magids beautifully written story strikes at the core of human anguish, the grief of losing a loved one, and the regrets that plague the human spirit. Mannie L. Magid is a physician and writer. He grew up and graduated from medical school in Johannesburg, South Africa. He and his late wife, Jeannette, moved to Houston, Texas in 1979 where he now resides. He is currently finishing up a historical fiction about Judaism in ancient Egypt. Infidelitys Fool is his first novel.
