

Magazine Beach

Magazine Beach is a skillful blend of cyberpunk, disaster, and horror genres... a fast-moving, satisfying yarn with a killer of an apocalyptic ending. New York Daily News Taken straight from today's most disturbing headlines, this futuristic suspense thriller is crafted in Lewis Gannett's signature blend of cyber-tech with a sexy, stylish twist. Nuclear devices planted beneath the polar ice are about to inundate the world's coastal cities in a cataclysmic flood. The World Wide Web has been re-wired into a doomsday clock, counting down to global disaster. And in Harvard Square, Toby Swett is falling in love with the woman of his dreams. Just as Magazine Street is about to turn into Magazine Beach.
