Not illustrated. 1906 Excerpt: ...technical aspects of canal-building. Furthermore, a wrong impression seems to have gone out through the country regarding the preponderance of engineering opinion. Although a majority of the consulting board, including the foreign engineers, were in favor of a sea-level canal, a majority of all the engineers who have had the problem under advisement, including both Americans and foreigners, had declared for the lock system. Each plan, of course, has its peculiar advantages and disadvantages. But the smaller initial cost and the greater speed-in construction are factors in the problem which will undoubtedly tell powerfully in Congress in favor of the Presidents proposition. The Senate committees investigation of conditions on the Isthmus and of various matters concerning the undertaking of the canal enterprise by the United States was continued last month with apparently meager results. In our department of Leading Articles of the Month will be found some reference to sanitary conditions on the Isthmus and an estimate of the value of the work done there by Colonel Gorgas in overcoming the two greatest impediments of canal construction on the Isthmus,--yellow fever and malaria.,t , Secretary Shaws decision; last month.
