

The Proviso, Directors Cut (Tales of Dunham Book 1)

Knox Hilliards uncle killed his father to marry his mother and gain control of the familys Fortune 100 company. Knox is set to inherit it on his 40th birthday, provided he has a wife and an heir. But after his bride is murdered on their wedding day, Knox refuses to fulfill the proviso at all. When a brilliant law student catches his attention, he knows he must wait until after his 40th birthday to pursue her but he may not be able to resist her that long. Sebastian Taight, eccentric financier, steps between Knox and his uncle by initiating a hostile takeover. When Sebastian is appointed trustee of a company in receivership, he falls hard for its beautiful CEO. She has secrets that involve his uncle, but his secret could destroy any chance he has with her. Giselle Cox unwittingly exposed the affair that set her uncles plot in motion twenty years ago. Because she holds his life in her hands, hes tried and failed to assassinate her. Twice. Then she runs into a much bigger problem: A man who takes her breath away, who can match and dominate her, whose soul is as scarred as his body. Knox, Sebastian, and Giselle: Three cousins at war with an uncle who will stop at nothing to keep Knoxs inheritance. Never do they expect to find allies and love on the battlefield.
