

Tainted Hearts

Every child dreams of a perfect life. Matt Tylo was no different except that he was gay. TAINED HEARTS is a story of a gay mans journey to achieve everything he ever wanted despite the odds. Through his struggles, Matt becomes a determined individual who suddenly believes his dreams can come true. He meets and falls in love with Ryan Cavazos. After years of dating, they decide to have a child of their own, especially after Matts best friend, Maureen Farnsworth, agrees to have their baby. While Matt sees his life taking shape, Maureen develops complications with the pregnancy and decides she cant give up the baby. As Matt awaits the birth of his child, a tragic event throws his life into turmoil, threatening him and his new family. Matt struggles to salvage his relationships and the dream he once had. After finding evidence that confirms his suspicions, Matt realizes that there is more to the people he holds closest to him. The journey that follows leads Matt down a path filled with lies, murder, and deceit from which he cannot return and will undoubtedly regret for the rest of his life.
