

Black Carnival

A collection of 19 short stories. From the books flyleaf: Roam in the obscure gloom of an underground tunnel where you are flanked by the deceased... enter the witchs lurid chamber of terror... witness the making of the Devils soundtrack... experience the self inflicted insanity of a poor soul... be present for the entombment of a misfortunate being - horror abounds through the entire stretch of this midway. As you travel the length of this collection, you will encounter the helter-skelter journey that is black carnival. I joyously dark time, awaits all!
