

## Good Boys: A Novel (Plume Books)

First published in 1993, Paul Reidinger's third novel spans a decade in the lives of three college friends whose paths cross and recross as they approach their thirties still trying to sort out the little disturbances of man: the tangled webs of friendship, the wheat and chaff of profession, the gilded cage of sex, the slippery meaning of good in a world that isn't. As they move along the boundaries of their relationship and of life itself, they find that growing up is not least about the power of secrets, the secrets of permanence, and that indescribable shade of love and desire together.
