

The Coburg Diaries: Death of a Princess

Has Princess Diana been murdered? Former London newspaper correspondent Pierre Frei investigated the circumstances of her death. Diana may not have died of an accident after all. Only two persons know what the Princess Marie-Louise von Sachsen-Coburg, Duchess of Kent, wrote in her diary. One is Princess Diana, the other is Edouard de Teck, illegitimate son of David Prince of Wales, later King Edward VIII and Duke of Windsor. Diana and Teck must die because they know of the secret. Paris society columnist Alexandra Renard and her London colleague Jonathan Cragg go on a hunt for the diary. Against all odds they find it and with it the incredible truth. Fiction at its best.
