

The Gomorrah Principle

The Vietnam War, often called the CIA's war, tested the morals of men from the highest offices of our nation to those from the smallest boroughs of rural America. Brady Nash was one of those men. When his friend Duff Cowan is killed in Vietnam, Brady recognizes the mysterious circumstances and is compelled to search for the truth. With an extraordinary ability to shoot and a hardnosed determination, Brady must face life and death through the scope of a rifle when he gets involved with a clandestine organization. Caught in a web of espionage and black-ops, Brady attempts to find the identity of Duff's killer. However, once he digs too deep, he soon finds himself on the hit list. While truth has a resonance to it that fills the cracks where falsehoods lie, Brady will quickly discover his search for truth is leading him to become more and more like the people he despises.
